

# Mission & Objectives

## Mission Statement

We support our robotics team by providing resources and opportunities, as well as building a community to empower students as innovators and leaders.

## Objectives

1. **Support Team Growth and Success**
  - Provide financial and logistical support to help the robotics team achieve its goals.
  - Assist in acquiring equipment, tools, and materials necessary for competitions and projects.
2. **Fundraise for Team Needs**
  - Organize fundraising events and campaigns to support travel expenses, competition fees, and team resources.
  - Seek sponsorships and donations from local businesses and community organizations.
3. **Promote STEM Education and Awareness**
  - Advocate for STEM (Science, Technology, Engineering, and Math) education in the school and local community.
  - Encourage student participation in robotics and related fields.
4. **Enhance Team Visibility**
  - Promote the robotics team through social media, newsletters, and local events.
  - Showcase team accomplishments and foster community pride.
5. **Provide Volunteer Support**
  - Recruit and coordinate volunteers for events, competitions, and team activities.
  - Offer mentorship opportunities by connecting the team with professionals in STEM fields.
6. **Foster Collaboration and Team Spirit**
  - Support team-building activities to enhance camaraderie and collaboration among members.
  - Create a positive environment that encourages creativity, problem-solving, and innovation.
7. **Engage the Community**
  - Organize events like open houses or demonstrations to showcase the team's work to the community.
  - Build relationships with local schools, businesses, and organizations to expand support for the program.
8. **Ensure Financial Transparency**
  - Maintain accurate and transparent financial records for all funds raised and expenses incurred.
  - Report regularly to the team, school, and booster club members about the club's financial status.
9. **Support Competition Readiness**
  - Help the team prepare for competitions by funding registration fees, uniforms, and travel.
  - Assist in organizing practice sessions and securing resources for project development.
10. **Expand Opportunities for Team Members**
  - Provide scholarships or funding for team members to attend robotics camps, workshops, or conferences.
  - Support professional development opportunities for students and coaches.

---

These objectives will serve as a roadmap for our boosters club, ensuring our efforts are aligned with the team's mission and long-term success.
